The Level 1: Fundamentals year-long program currently consists of four intensive, extended weekends (Thursday to Sunday) every 10 weeks over the course of a year. This program is a deep-dive into self-care, and the fundamentals of Donna Eden's healing modality developed from her extensive body of knowledge of over 40 years.

Classes must be taken sequentially, with each class building on the knowledge and skills from the previous class. Each class is designed to provide you with the understanding, skills and techniques for working with the body's energies to promote physical and emotional wellbeing.

By design, each class delivers a lecture and presentation, teacher demonstration, and supervised student hands-on practice of each protocol. Each class concludes with a teacher demonstration of an Energy Tracking Session, bringing together all the protocols learned during the four day class. Students then give and receive a fully supervised energy tracking session to experience and enhance their learning.

Receiving and experiencing the techniques is an important part of students learning with the Eden Method. This framework, builds into a rich and unique curriculum for students, working to support the nine energy systems within the Eden Method.

WHO IS THIS FOR?

LEVEL 1: FUNDAMENTALS

BECOMING EMPOWERED

There are no pre-requisites to enrol. We have people from all walks of life in our program and classes can be taken by:

- Anyone who wishes to experience an empowering deep-dive into self-care to support their health, wellbeing, and vitality.
- Care-givers can benefit greatly from using the methods they learn in Level 1 for personal self-care and with those they support.
- Those who wish to embark on the pathway to become an EEM Certified Practitioner and open a healing practice offering Eden Method sessions in the future.
- Health-care professionals who wish to integrate EEM into their existing modality or practice.

On the successful completion of Level 1: Fundamentals program students will receive a ***Certificate of Completion***. This does not carry any qualifications, and does not entitle holders to open a practice, or offer EEM sessions. The successful completion of Level 1: Fundamentals does allow you to continue onto Level 2 of the EEM Certification Program.

The ***Level 2: Certification Training*** is currently available in a **hybrid online/in-person** format **in Australia**. Depending on your reasons for aligning with this program, at the end of Year 1, you may complete your studies or continue to Level 2.

*If you are interested in becoming an EEM-Certified Practitioner, I am happy to discuss the pathway and options available to you.

BETWEEN CLASS

PRACTICE AND REQUIREMENTS

There is a requirement for students to review and study the course material and regularly practice the skills from each class during the 10 weeks between classes.

THREE WEEKS AFTER CLASS

To support your learning, students will be required to submit an open book written test on the class material three weeks after each class. This includes observational questions about what students are noticing after working with the techniques learned in class. Your teacher will review and provide feedback.

SIX WEEKS AFTER CLASS

To support your hands-on techniques students will be required to complete an online practical demonstration of the class material with their teacher six weeks after class. This is a very supportive process. Students who had hesitations, because of a negative experience in their past, agree that the practical demonstration was very positive and supportive to their learning!

This method of confirming a student's understanding of the class material and competency in the protocols, supports their ongoing growth and development in the work, and readiness to absorb the new material presented in the next class.

ONLINE PORTAL

EDEN ENERGY MEDICINE CENTRAL

ONLINE PORTAL AND ACCESS TO CLASS MATERIALS

Students are granted access to the EEMC online portal approximately two to three weeks prior to each class, once their tuition for class has been received.

Students will require internet access to view the class materials and submit their written test after each of the four classes. If technology is not your strong suit, please do not worry, as I will take you through the portal step-by-step, and also provide you with a video that you can watch at any time.

Each year a private online group is created and opened about four to six weeks prior to Class 1. It is used as a source of communication and connection in the lead-up to class and between each class.

The groups have been very successful with students, as it is not only a way to connect with other class members before class, but also a place for support and information between classes.

VIRTUAL 'MEET & GREET' VIA ZOOM

We also have a virtual 'Meet & Greet' via Zoom about four weeks prior to class as an opportunity for everyone to connect online, perhaps organise transport together, and to ask any questions before class. Feedback has been very positive! Walking into Class 1 is much easier when you have already connected online!
